

Ethereal existence

The image features a dark, monochromatic background with a heavy, atmospheric quality. The surface is covered in numerous water droplets of varying sizes, which catch the light and create a shimmering, textured effect. The droplets are most prominent in the foreground, while the background is a soft, out-of-focus grey. The overall mood is somber and contemplative, consistent with the text 'Ethereal existence'.

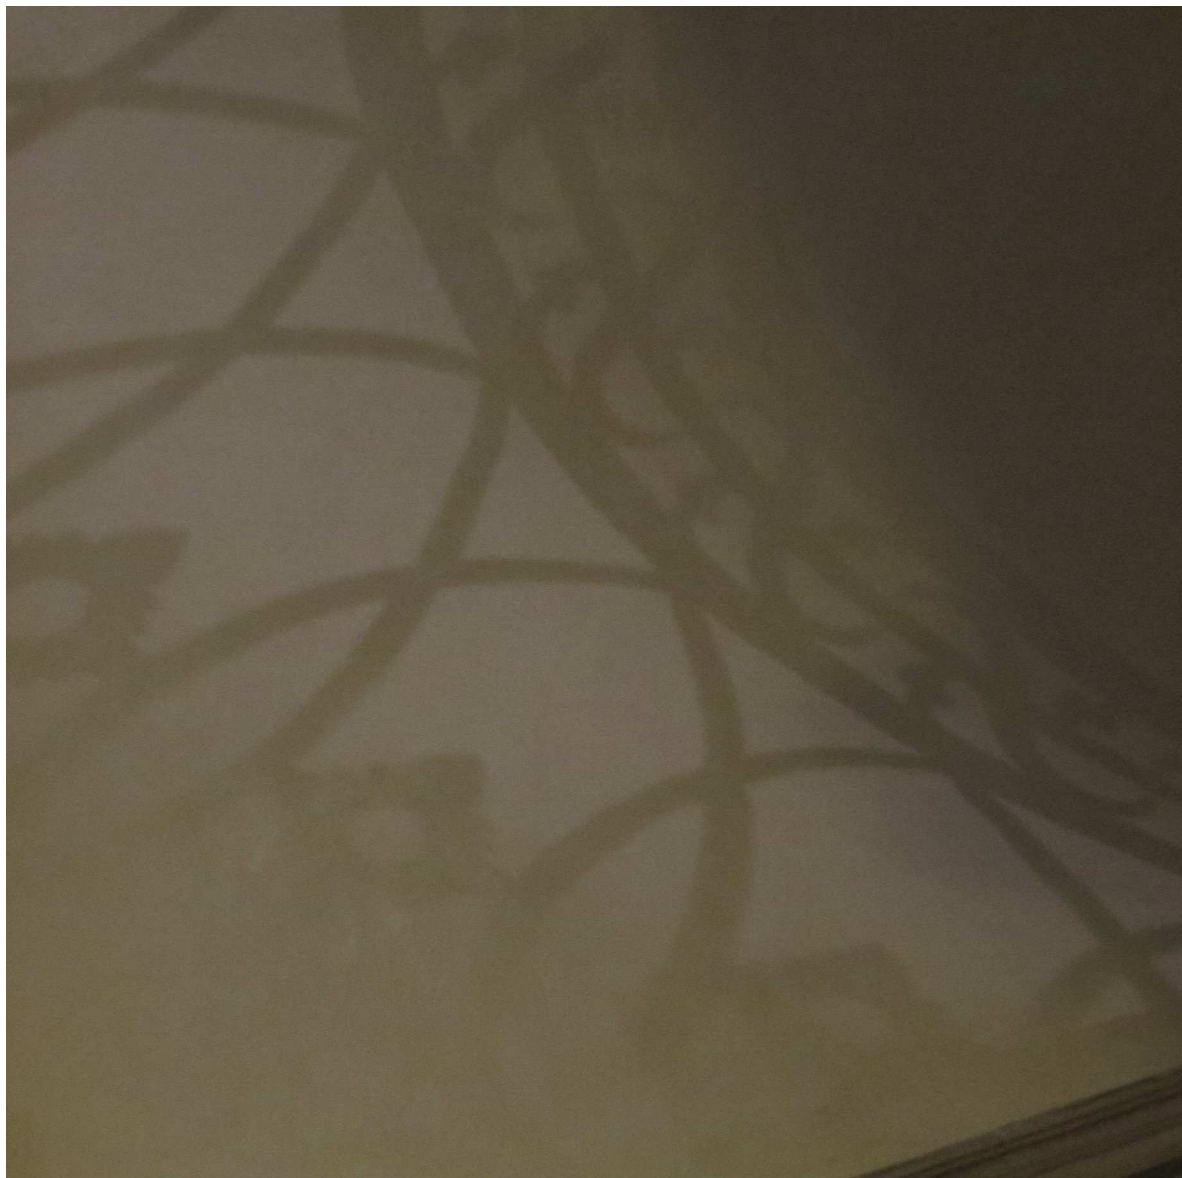

Ethereal existence

Moments that would otherwise be lost.

Fragments, sections, the remains of actions and objects. Often intangible, they rely on the play of light, shadow or reflection to live. Points in time, which contribute to the continuum of existence.
